DNI601TEPHMP	Yes (note 3)	All Engines	Digital	ANI/DNIS	48/60	T1/E1 dual span. See note 5.
DNI1200TEPHMP	Yes (note 3)	All Engines	Digital	ANI/DNIS	96/120	T1/E1 dual span. See note 5.

**Notes:**

- 1 Also has fax and conferencing resources, with proper media load.
- 2 No CSP on ISDN.
- 3 Nuance only.
- 4 Requires break out box or specialty cables.
- 5 HMP depends on resources purchased. TTS ASR will work if proper resources available.
- 6 The D/4PCIU card is supported in 5.5 but is a discontinued product.

This version is supporting only PCI cards.

Last version supporting Brooktrout boards is VBVoice 5.3.1. There will be no support in subsequent versions.

Due to declining demand, not all boards have been officially tested with our latest release. We encourage you to contact our sales department for any compatibility inquiries.

For any other questions please contact your Pronexus Sales Representative.
